Motivation/Purpose

Seeking **part-time/full-time** position that offers experience, discipline, wage. Committed to working hard to get impactful, gratifying, healthy career. **Goal**, one day start my own business or work in tech. I don't compromise on integrity.

- Work Experience -

IT Tech/Repairman

PC Tech: local PC networks, printers, remote assist, network drive etc...

Repairman: moderate complexity assembly/disassembly, can fix most things w/ reference/guide/research electronics (desktops, laptops, phones, ebikes, VR headsets etc...)

Basic electronics: built alarm clock, BMS, biggest was 80AH LifePo4

Tutor/Education

Associates Math Fresno City College
Incomplete BS Elec Engineer UCSC

Math/Computer tutoring side gig
Helped doctor (mom) pass medical laser physics exam
Coached Lego robotics team

Traveler/Survivalist

Can travel quickly w/ little notice
skilled w/ improvisation/bushcraft
prepared for most things

Calm and logical under extreme duress
Danger sense, descelation tactics,
conflict evasion, peace making,

Handyman/Maker

Laborer: House flipping with father
Competent in: Digging foundation concrete pour/level, wood framing, electric, drywall, tile and grout, painting, roofing, HVAC, etc...

Maker/Artisan: personal projects/art
Decent with hand and powertools, repair misc(furniture, car engine, power cord, etc), mostly detail work/maintenance, Can CAD(Onshape), TIG metal welding,

Web/AI/VR/XR Developer

Mini projects/snippets/applets on portfolio *https://emnolope.github.io*

Made **Discord group**, XenonXR attempt full body tracking for VR with one camera using AI, fell apart, COVID depression, Meta competition.

AI, Google Colab RL toy examples
Decent at prompt engineering (GPT4)
Up to date, news/theory of AI & VR
In progress VR word processor

Weaknesses/Disabilities

Will randomly get tired, need to use food pouch to compensate, shouldn't exceed four hours of intense labor

Mild Autism & ADHD

Need to **create/keep many reminders**

Notes:
