Motivation/Purpose

I am looking for **gainful employment** that is purposeful and offers structure and experience. I value **safety health** and **integrity**. My goal is to eventually do impactful work with social justice and technology.

Technician/IT

Technician: fix/make medium complex consumer electronics (basic circuits, phones, ebikes, BMS, clock, VR ...) with assembly reference off web
IT: Virtual machines, android root, networking, remote assist, AWS ...

Traveler/Survivalist

Can travel under **short notice**
Experience in tent plane train van...
Calm under **dire circumstances**. Panic deescalation methods YEPP, improviser
No fear grit, be leader when needed
Social media following YT TT IG

Digital

Organized international VR dev group to solve RGB HPE with AI, abandoned because Meta Quest tracking and COVID
Fluent in Python and Javascript
Studied AI theory & math since 2016
Openclaw AI agent, custom endpoints
Advanced prompt engineering

Laborer

Food handler certif Brookdale Senior
Direct action, varied: plant gardens, stop fights, furniture repair, unclog drains, supply runs, move resources, clean litter, volunteering...

Teaching/Education

Fresno City College AA Math
UCSC dropout (EE)
Tutored doctor(MD) in laser physics
Coached Lego Robotics Kids Team
Attended NITMB Bio-Math conference
Made community AI workshop(*progress)

Trades:Handyman/Artisan

Maker artisan: mostly details, carve wood, weld metal, repair misc (lamps, furniture, engine, etc), basic CAD...
House flipping with Dad, basics in: drywall, tile and grout, paint trim, concrete pour+level, foundation dig, electric, wood framing, roof, HVAC...

Weaknesses/Disabilities

Physically fatigued after **4 hours**, need **food pouch** & alternate mind body work for endurance
AuADHD, I make many **written reminders** for high function/deep work

Notes
